SPC Standard Programmable Controller

Size 300 (h) x 200 (w) x 80 (d)
6 inputs for sensors
2 outputs 0-10v dc
4 switched outputs

Options –
More inputs and outputs
Modbus interface
Overrides on the panel fascia

NVC Network Ventilation Controller

Size 700 (h) x 500 (w) x 150 (d) *(typical)*
Expandable inputs and outputs at main panel

Options –
Keyboard display or graphic touchscreen
Modbus interface
Overrides on the panel fascia

Network I/O modules

Enclosure size 400 (h) x 300 (w) x 80 (d) *(typical)*
5 inputs for sensors
2 outputs 0-10v dc
2 switched inputs
2 switched outputs

A system is assembled by using a number of I/O modules
which are linked to the main panel via a 2 core screened
communication cable.

To other modules
